

COLLEGE SOFTBALL UMPIRE SCHOOL

NOVEMBER 3 - 6, 2016 Binghamton, New York

TWO MAN & THREE MAN MECHANICS

The one and only school to offer professional training for softball umpires interested in learning or improving two man and three man mechanics for college softball! Students will benefit from a positive learning environment with: interactive base work drills, high repetitions, small groups, demonstrations, and illustrations. Please bring your glove if able to field and throw.

PLATE WORK

Experience traditional umpire school plate work drills with one-on-one instruction! We will cover the fundamentals of the college approved stances, signals, and positioning. Video analysis will occur during each of your plate sessions for additional learning and development.

SIGNALS

Our daily routine will begin with a line formation covering basic signals as well as advanced signals. Students will learn the proper college softball signals and verbal terminology.

ADDITIONAL TOPICS
